

Case ZA-519

**Official Decision
Zoning Administrator
Carroll County, Maryland**

APPLICANT: Timothy O. Bach
2597 Ebbvale Road
Manchester, Maryland 21102

REQUEST: A variance to reduce the minimum
required rear yard setback from 50
feet to 37 feet for an attached
garage

LOCATION: 2597 Ebbvale Road
Manchester, Maryland 21102

APPLICABLE REGULATIONS: Article 6, Section 6.4, Article 15,
Section 15.5; Zoning Ordinance 1E

HEARING HELD: September 6, 2000

FINDINGS & CONCLUSIONS

Based on the testimony and evidence presented at the hearing, the variance is granted.

Facts which support the request for relief from the strict terms of the Ordinance, in this case, a reduction from the minimum rear yard setback from 50 feet to 37 feet for an attached garage, are as follows:

The current zoning on this property is Agricultural. The applicant is asking for a variance from the rear yard setback for an attached garage.

When the home was originally built, the builder situated the home in the corner of the property. This was done due to the topography and the need for the well and septic to be placed properly. This situation leaves very little area to add onto the property.

The granting of this variance will have no adverse effect on any adjoining property owners and failure to grant the variance would result in undue hardship to the property owner.

NOTE:

Appeals of decisions made pursuant to Section 15.5 may be made to the Board of Zoning Appeals within thirty (30) days of the date of the Zoning Administrators decision in accordance with Section 17.4 of the Carroll County Zoning Ordinance 1E.

A decision of the Zoning Administrator made pursuant to Section 15.5 is final, and constitutes a zoning action. Unless timely appealed, parties may not thereafter challenge the Zoning Administrator's decision.
