FINDINGS & CONCLUSIONS

Based on the testimony and evidence presented at the hearing, the variance is granted.

The Applicants are requesting a variance from the required minimum setback from 35 feet to 28 feet for the construction of a deck enclosure. The Applicants have a two-story split foyer style home with very little buildable space around their house. Therefore, the Applicants are proposing to enclose the existing deck with a roof, walls and windows to convert it into a family room. The test of unreasonable hardship and practical difficulty has been met due to the fact that there is insufficient space on the property to construct an addition.

There were no neighbors present at the hearing opposing the applicant's request; therefore, the granting of this variance should have no adverse effect on any adjoining property owners.

This approval is valid for one year from the date of this Zoning Certificate.

NOTE:

Appeals of decision made pursuant to Chapter 223-183 may be made to the Board of Zoning Appeals within thirty (30) days of the date of the Zoning Administrators decision in accordance with Chapter 223-188 of the Code of Public Local Laws & Ordinances.
