and 6 Ft. for the construction of a  
building

**LOCATION:**

**APPLICABLE REGULATIONS:**

Code of Public Local Laws and  
Ordinances, Chapters 223-37 and  
223-181

**HEARING HELD:**

November 7, 2001

**FINDINGS & CONCLUSIONS**

Based on the testimony and evidence presented at the hearing, the variance is granted.

The Applicants are requesting a variance from the required minimum setback of 50 Ft. to 25 Ft. and 6 Ft. for the construction of a building. The topography of the property is not level and the only way to access it is along the power line. Baltimore Gas and Electric has approved the driveway entrance for this building. The Applicant does not want to disturb the existing trees and streams. Mr. Green suggested the possibility of moving the building 4 more feet. The Applicant stated that by moving the building 4 additional feet, it would interfere with an existing wall and it would require cutting down more trees.

Due to the existing trees, the location of the driveway and the steepness of the slope, the building could not be placed on any other location of the property. The Applicant meets the test of practical difficulty based on these reasons.

The Applicant has no close neighbors and no neighbors were present at the hearing opposing the Applicant's request; therefore, the granting of this variance should have no adverse effect on any adjoining property owners.

This approval is valid for one year from the date of a Zoning Certificate.

NOTE:

Appeals of decision made pursuant to Chapter 223-183 may be made to the Board of Zoning Appeals within thirty (30) days of the date of the Zoning Administrators decision in accordance with Chapter 223-188 of the Code of Public Local Laws & Ordinances.
