HEARING HELD:

FINDINGS & CONCLUSIONS

Based on the testimony and evidence presented at the hearing, the
variance is granted.

Facts, which support the request for relief from the strict terms of
the Ordinance, in this case, a reduction of the minimum required side yard
setback of 100 feet to 32 feet and to a house on surrounding property of 3
acres or more from 200 Ft. to 161 Ft. for the construction of a barn, are
as follows:

The Applicant is requesting a variance due to the irregular shape of
the lot. The lot is long and narrow. In order to be 100 Ft. from either
sideline, there is a very limited area to construct a barn. The only other
location could be north of the row of pine trees that bisect the lot and
that location is also hilly, which would require excavation and would take
up some of the field space that is reserved for horses. There is also a
recorded drainage and utilities easement across the lot in this area. There
will only be horses in the barn, since there are covenants and restrictions
regarding animals. The Applicant has demonstrated undue hardship and
practical difficulty and this is the most practical location for the barn
to be functional.

No neighbors were present at the hearing opposing the Applicant’s
request; therefore, the granting of this variance should have no adverse
effect on any adjoining property owners.

This approval is valid for one year from the date of a Zoning
Certificate.
NOTE:
