Based on the testimony and evidence presented at the hearing, the variance is granted.

Facts which support the request for relief from the strict terms of Section 223-37 of the Carroll County Code, in this case a reduction in the required minimum setback of 50 feet to 32 feet for a garage and addition to the existing dwelling on property located at 810 Dixon Avenue, Sykesville, Maryland.

The property was inspected on March 27, 2003. There is a long row of 15 ft. tall Leyland Cypresses running the length of the property on the side where the garage and addition are planned. These evergreen trees will not need to be removed to accommodate the addition and will help buffer the adjoining property. The property was duly posted and adjoining property owners were notified of the hearing.

Mrs. Hild testified at the hearing that the addition was needed to accommodate a growing family. There was no one else present at the hearing to testify on this matter and this office has not received any correspondence or telephone calls from anyone concerning this variance.
