CORRECTED Notice of Decision

Case # ZA-845
Permit # 03-4383

Variance Request: For a variance from the minimum setback from 50 feet to 40 feet for an addition to the home at 2802 Bel Court, Manchester, MD in Election District 6, by James and Allison Lafean.

Basis for Variance: § 223-75 and § 223-181 of the Carroll County Code of Public Local Laws and Ordinances.

Decision: Approved.

Basis for Decision:
It is the opinion of the Zoning Administrator that approval of the variance request will not:
- Adversely affect the public health, safety, security, morals, or general welfare.
- Result in dangerous traffic conditions or jeopardize the lives or property of people living in the neighborhood.

In making this determination, the Zoning Administrator cannot answer in the affirmative to the criteria provided in Section 223-191 of the Carroll County Code that:
- There would be a detrimental effect on the people working or residing in the area
- There would be a negative impact on the orderly growth of the community
- There would be a detrimental effect on the peaceful enjoyment of people in their homes.
- That the use would have a negative effect on the conservation of property values.
- That there would be any effect from odors, dust, gas, smoke, fumes, vibrations, glare, and noise upon surrounding property values.

A field review of the property indicated that the proposed location of the addition, a sun room, was the most logical for the property and the least offensive for adjoining property owners. The proposed sun room will actually be replacing an existing deck so the new structure should not create any new aesthetic concerns for the adjoining property owners. There were no protestants to the variance.
