Notice of Decision

Case # ZA-964

Permit # 05-2197

Variance Request: For a variance from the required minimum setback of 20 feet to 10 feet for a room addition at 2507 Karen Way, Westminster, MD in Election District 04 by Don and Kathy Williams.

Basis for Variance: § 223-66 and § 223-181 of the Carroll County Code of Public Local Laws and Ordinances.

Decision: Approved.

Basis for Decision:

It is the opinion of the Zoning Administrator that approval of the variance request will not:

- Adversely affect the public health, safety, security, morals, or general welfare.
- Result in dangerous traffic conditions or jeopardize the lives or property of people living in the neighborhood.

In making this determination, the Zoning Administrator cannot answer in the affirmative to the criteria provided in Section 223-191 of the Carroll County Code that:

- There would be a detrimental effect on the people working or residing in the area
- There would a negative impact on the orderly growth of the community
- There would be a detrimental effect on the peaceful enjoyment of people in their homes.
- That the use would have a negative effect on the conservation of property values.
- That there would be any effect from odors, dust, gas, smoke, fumes, vibrations, glare, and noise upon surrounding property values.

The applicants explained that they needed to add a room to allow them to move the laundry room upstairs and create space for when their grandchildren visit. The topography of the lot makes it such that the rear of the house is the most logical for the addition. There were no protestants at the hearing nor were there any previous communications to oppose granting the variance.

8 November 2005

Neil M. Ridgely
Zoning Administrator
