APPLICABLE REGULATIONS:  
Code of Public Local Laws and Ordinances, Chapters 223-66 and 181

HEARING HELD:  
March 1, 2006

FINDINGS AND CONCLUSIONS

Based on the testimony and evidence presented at the hearing, the variance is granted.

Facts, which support the request for relief from the strict terms of the Ordinance, in this case, a reduction of the minimum required setback of 50 feet to 40 feet for the construction of an addition, are as follows:

Mr. and Mrs. Coyle purchased this property after the house was built. The house was built too close to the rear property line although this was not discovered until they applied for a building permit for an addition to the house. Also, the house was not built facing the front property line, which is designated by the minimum building line recorded on the plat. This leaves the actual side wall of the house facing the rear property line. The applicants wish to build an addition to the rear of the house which will continue the wall that is encroaching on the rear setback. Since the house was built too close to the rear property line this new addition also will not meet the required 50 foot rear yard setback.

No neighbors were present at the hearing opposing the Applicant’s request; therefore, the granting of this variance should have no adverse effect on any adjoining property owners.

This approval is valid for one year from the date of a Zoning Certificate.
