Official Decision
Case ZA-1328
Zoning Administration
Carroll County, Maryland

APPLICANT: Howard B. Chaney

REQUEST: Variance to a side yard setback from 12.5 feet to 3.5 feet for a detached garage

LOCATION: 5767 Middleburg Road
Keymar, MD 21757

MAP/BLOCK/PARCEL: 35/17/113

APPLICABLE REGULATIONS: 223.177(B)

HEARING HELD: November 2, 2011

FINDINGS AND CONCLUSIONS

Based on the testimony and evidence presented at the hearing the variance is granted.

Facts which support the request for relief from the strict terms of the Ordinance, in this case, a variance from a 12.5 foot setback to a 3.5 foot setback for a detached garage are as follows:

Mr. Chaney's house was built in 1960 prior to Zoning in Carroll County. The lot Mr. Chaney's house is built on does not meet the requirements of one (1) acre for Agricultural zoned lots, and is therefore covered by Section 223.177(B). By using Section 223.177(B) to determine side yard setbacks, it allows for a setback of 12.5 feet, which is 10% of the average lot width.

Mr. Chaney proposes to build a detached garage located in front of his house. The reason for this placement is that the rear yard is consumed by his septic system which covers his entire rear yard. His well location is on the east side of his house, which precludes building his garage at that location. The location he is proposing sits atop his existing paved parking pad, which helps reduce the amount of ground to be disturbed by the new garage. To place the proposed garage any further away from the side property line would infringe on his existing driveway. Due to the above listed hardships that were not caused by Mr. Chaney, it is appropriate to allow the reduction of his side yard setback for his garage to 3.5 feet.
