

Case ZA-427

**Official Decision
Zoning Administrator
Carroll County, Maryland**

APPLICANT: Ronald Miskell
3735 Zakira Court
Hampstead, MD 21074

REQUEST: A reduction in the minimum rear
yard requirement for an addition

LOCATION: 3735 Zakira Court
Hampstead, MD 21074
E.D. 8

APPLICABLE REGULATIONS: Article 7, Section 7.5, Article 15,
Section 15.5; Zoning Ordinance 1E

HEARING HELD: December 2, 1998

FINDINGS & CONCLUSIONS

Based on the testimony and evidence presented at the hearing, the variance is granted.

Facts which support the request for relief from the strict terms of the Ordinance, in this case, a reduction in the minimum rear yard requirement for an addition, are as follows:

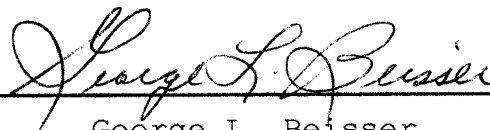

This lot is located at the end of a court and therein has a narrow road frontage. The lot opens up as it progresses toward the rear property line. Due to the configuration of the lot the front minimum building line had to be established 15 feet further back than is required normally in this zone. Due to the extended front MBL, the location of the well in the rear yard and the required placement of the septic a small envelope or buildable area for residence was provided.

Placement of the addition is limited due to structural overhangs and chimney flues in addition to placement of the house on the property.

The granting of this seventeen (17) foot variance will have no adverse effect on adjoining properties.
