

Case ZA-575

**Official Decision
Zoning Administrator
Carroll County, Maryland**

APPLICANT: Genine Consagra-Riggins
3935 Benson Mill Court
Finksburg, Maryland 21048

REQUEST: A variance to reduce the required
minimum rear yard setback from 50
feet to 10 feet for the
construction of a pole barn

LOCATION: 3935 Benson Mill Court
Finksburg, Maryland 21048

APPLICABLE REGULATIONS: Code of Public Local Laws and
Ordinances, Chapters 223-35(B) and
223-181

HEARING HELD: June 6, 2001

FINDINGS & CONCLUSIONS

Based on the testimony and evidence presented at the hearing, the variance is granted.

Facts, which support the request for relief from the strict terms of the Ordinance, in this case, a reduction of the minimum required rear yard setback from 50 feet to 10 feet to construct a pole barn, are as follows:

The Applicant is requesting a 40 Ft. variance to construct a 24 Ft. x 34 Ft. barn on property that is a recorded sub-division lot in Benson Mills. Much of the site is subject to a forest conservation easement. With streams and springheads in the area, the property is governed by sub-division regulations requiring a 100 Ft. on each of the stream banks for a water resource protection easement. The proposed location of the barn will infringe on a zoning line established by Section 223-35. Due to the location of the house, easements and septic system, the Applicant is limited to where the proposed barn can be placed that would be without the 10 Ft. drainage, utilities and recorded easements without creating unreasonable and practical difficulty for the Applicant. The proposed barn will be used to shelter one horse and one pony. There is no dwelling to our knowledge existing on Lot 7 to the rear of the property.

There were no neighbors present at the hearing opposing the applicant's request; therefore, the granting of this variance should have no adverse effect on any adjoining property owners.

This approval is valid for one year from the date of this Zoning Certificate.
