

Case ZA-582

**Official Decision
Zoning Administrator
Carroll County, Maryland**

APPLICANT: Pearson Signs & Service
P.O. Box 399
Hampstead, Maryland 21704

REQUEST: A variance from the required
setback from 20 Ft. to 10 Ft. for
the construction of a free-
standing sign

LOCATION: 2915 Michelle Brauning Drive
Finksburg, Maryland 21048

APPLICABLE REGULATIONS: Code of Public Local Laws and
Ordinances, Chapters 223-138 and
223-181

HEARING HELD: July 11, 2001

FINDINGS & CONCLUSIONS

Based on the testimony and evidence presented at the hearing, the variance is granted.

The Applicant is requesting a 10 Ft. variance from the required setback to construct a freestanding sign. Construction of the sign has begun with only the standard being completed. Due to the position of the building, a variance is requested for sign visibility. It was discovered that the sign was not in the proper position and construction was stopped. If the sign were 10 Ft. from the property line, one of the existing poles could be utilized. The on-site sign will identify the owner's business. The bottom portion of the sign will allow for messages, i.e. operating hours, etc. To place the sign within the setback identified, the sign would be totally obscured by the trees in both directions of Rt. 140. The only alternative would be to extend the height of the sign, which is not practical due to the 30 Ft. height restriction. As a result, construction of the sign any other location of the owner's property would create unreasonable and practical difficulty.

There were no adjoining property owners present at the hearing opposing the applicant's request; therefore, the granting of this variance should have no adverse effect.

This approval is valid for one year from the date of this Zoning Certificate.
