for the construction of an addition
to the existing dwelling to include
a club room, an enclosed swimming

garage.

LOCATION: 5612 Sierra Court
Mt. Airy, MD 21771

APPLICABLE REGULATIONS: Code of Public Local Laws and
Ordinances, Chapters 223-150 and
223-181

HEARING HELD: June 4, 2002

FINDINGS & CONCLUSIONS

Based on the testimony and evidence presented at the hearing, the variance is granted.

The Applicants are requesting a variance from the required minimum setback of 20 Ft. to 17 Ft. for the construction of an addition to the existing dwelling to include a clubroom, an enclosed swimming pool and an attached two-car garage. The configuration of the addition to be constructed shows that there is only one corner of the proposed garage that does not meet the 20 Ft. set back. The 22 Ft. wide garage needs to be deep enough to accommodate an SUV and a van. If the proposed construction of the garage would be detached instead of being part of the addition, the Applicants could build closer to the property line, since it is in the rear of the house. Based upon the location of septic system and the amount of a variance that is being requested for that corner of garage, demonstrates that there is practical difficulty for the Applicants and it is more practical to square the addition instead of being triangular.

No neighbors were present at the hearing opposing the Applicant's request; therefore, the granting of this variance should have no adverse effect on any adjoining property owners.

This approval is valid for one year from the date of a Zoning Certificate.
