

Case ZA-663

**Official Decision
Zoning Administrator
Carroll County, Maryland**

APPLICANT: Benjamin Perricone
801 Franklin Avenue
Westminster, Maryland 21157

REQUEST: A variance from the required
minimum setback from 5 Ft. to 1 Ft.
for the construction of a detached
garage.

LOCATION: 801 Franklin Avenue
Westminster, MD 21157

APPLICABLE REGULATIONS: Code of Public Local Laws and
Ordinances, Chapters 223-178 and
223-181

HEARING HELD: July 2, 2002

FINDINGS & CONCLUSIONS

Based on the testimony and evidence presented at the hearing, the variance is granted.

Facts, which support the request for relief from the strict terms of the Ordinance, in this case, a reduction of the minimum required setback from 5 Ft. to 1 Ft. for the construction of a detached garage, are as follows:

Franklin Avenue is located in the Fairfield District, which is a completely built out residential neighborhood. The lots are small and the Applicant's lot is one of the smallest lots at 85 Ft. wide. The depth is equivalent to the other lots in the neighborhood; however the Applicant's lot is 10 Ft. narrower in width than the others in the neighborhood. The current required setback of 5 Ft. would create a 120 Sq. Ft. area, that would be 5 Ft. wide by the length of the garage that would still be on the Applicant's property, but would be useless for the Applicant. In the neighborhood, the Applicant's house is the only residence that does not have either a garage or a carport. Should the variance be denied, a hardship would be created for the Applicant, since there would be a loss of 120 Sq. Ft. of use. There are no structures on the adjoining property owner, therefore, the placement of a garage would not infringe upon them. The proposed location of the garage is behind the property, which creates no access or drainage issues. The construction of the garage will mirror the house with the roof extending approximately 6 inches. The gable end of the garage would be facing towards the road and the entrance of the garage would be facing the driveway. On the backside, which is close to the property line, the amount of overhang will be what is necessary for a gutter. One foot will allow for maintenance of the grass.
