

Case ZA-690

**Official Decision
Zoning Administrator
Carroll County, Maryland**

APPLICANT: Geoffrey E. & Kathy E. Healy
2955 Hoffman Mill Road
Hampstead, Maryland 21074

REQUEST: A variance from the required
minimum setback of 37.5 Ft. to 22
Ft. for a deck around a portion of
an existing in-ground swimming
pool.

LOCATION: 2955 Hoffman Mill Road
Hampstead, MD 21074

APPLICABLE REGULATIONS: Code of Public Local Laws and
Ordinances, Chapters 223-179 and
223-181

HEARING HELD: October 1, 2002

FINDINGS & CONCLUSIONS

Based on the testimony and evidence presented at the hearing, the variance is granted.

Facts, which support the request for relief from the strict terms of the Ordinance, in this case, a reduction of the minimum required setback of 37.5 Ft. to 22 Ft. for a deck around a portion of an existing in-ground swimming pool, are as follows:

The Applicants' home was positioned on the lot according to the perc test. The home could not be positioned any further forward on the lot due to the topography of the lot. As a result, the house was built in a tilted position instead of a straight line, which creates the inability to comply with the 37.5 Ft. setback under the Zoning Ordinance. The in-ground pool is located to the rear of the property. The septic system is located on one side of the swimming pool and the well is located on the other side. In order to access the pool from the house, the Applicants are proposing to construct a deck around the pool. The hill creates the need to attach the deck all of the way up to the house, since there is no accessibility to the pool because of the drop off. A rented cornfield borders the rear of the Applicants' property.

No neighbors were present at the hearing opposing the Applicant's request; therefore, the granting of this variance should have no adverse effect on any adjoining property owners.

This approval is valid for one year from the date of a Zoning Certificate.
