

Case ZA-720

**Official Decision
Zoning Administrator
Carroll County, Maryland**

APPLICANT: Susquehanna Bank/Sheridan Smith
100 West Road, Suite 200
Baltimore, Maryland 21204

REQUEST: A variance from the required number
of on-site spaces for vehicular
queuing for a bank drive-through
station from five spaces to four
spaces.

LOCATION: 1324-1326 Londontown Blvd.
Eldersburg, MD 21784

APPLICABLE REGULATIONS: Code of Public Local Laws and
Ordinances, Chapters 223-134 (10)
(b) (1) and 223-181

HEARING HELD: January 7, 2003

FINDINGS & CONCLUSIONS

Based on the testimony and evidence presented at the hearing, the variance is granted.

Facts, which support the request for relief from the strict terms of the Ordinance, in this case, a reduction from the required number of on-site spaces for vehicular queuing for a bank drive-through station from five spaces to four spaces, are as follows:

Pete Podolak of Leon A. Podolak and Associates testified on the engineering of the layout and provided an alternate sketch (Sketch Plan 2) showing the problems with the layout providing for the required queuing spaces on site. This sketch showed the problems with pedestrian access to the building and loss of parking spaces.

A question was raised about the left turn lane shown on Sketch Plan 1, whether it would interfere with access to the future development of the sites beyond the bank. Mr. Podolak testified that the left turn lane would not interfere with access, but would help by moving left turning cars out of the traffic flow.

Mr. Sheridan Smith, Senior Vice President, Susquehanna Bank, testified that the bank's experience at its other branch in Eldersburg shows that the requested reduction in queuing should be adequate for this bank.

According to testimony given, Sketch Plan #1 that was submitted is the safest proposal; therefore, the variance is granted.

This approval is valid for one year from the date of a Zoning Certificate.
