Re: Variance for an addition to a home within the rear yard setback
Case ZA-757, Permit 03-0846

Dear Mr. Schmidt:

Based on the testimony and evidence presented at the hearing on the above referenced variance, the variance is granted.

Facts which support the request for relief from the strict terms of The Code of Public Local Laws and Ordinances for Carroll County Section 223-150, in this case a reduction to the required setback of 20 feet to 10 feet for the construction of a detached garage, adjacent to the residence are as follows:

The property was inspected by the Zoning Administrator and the proposed detached garage was found to have a minimal, if any, effect on adjoining property owners and the overall character of the neighborhood. While the initial submittal for a variance placed the garage in the drainage and utility easement, the plan was amended prior to the hearing to relocate it outside the easement area. The site was properly posted and adjoining property owners notified.

There were no members of the public present at the hearing to testify in opposition to the project. The Office of Zoning Administration has not received any comments in opposition to the variance by either mail or telephone.

Per Section 223-181, strict compliance with the terms of the zoning ordinance would be impractical and cause undue hardship on the petitioners.

This approval is valid for one year. Appeals to this decision must be filed within 30 days of the date of the approval.

Sincerely,
Neil M. Ridgely
Zoning Administrator
