## Notice of Decision

Case # ZA-876  
Permit # 04-3147

**Variance Request:** For a variance from the minimum setback from 50 feet to 48 feet for a room addition to the home (conversion of a screened-in porch to an all-season room) at 3755 Zakira Court, Hampstead, MD in Election District 08 by Timothy Scott Dignan.

**Basis for Variance:** § 223-82 and § 223-181 of the Carroll County Code of Public Local Laws and Ordinances.

**Decision:** Approved.

**Basis for Decision:**

It is the opinion of the Zoning Administrator that approval of the variance request will not:

- Adversely affect the public health, safety, security, morals, or general welfare.
- Result in dangerous traffic conditions or jeopardize the lives or property of people living in the neighborhood.

In making this determination, the Zoning Administrator cannot answer in the affirmative to the criteria provided in Section 223-191 of the Carroll County Code that:

- There would be a detrimental effect on the people working or residing in the area
- There would a negative impact on the orderly growth of the community
- There would be a detrimental effect on the peaceful enjoyment of people in their homes.
- That the use would have a negative effect on the conservation of property values.
- That there would be any effect from odors, dust, gas, smoke, fumes, vibrations, glare, and noise upon surrounding property values.

The applicant was persuasive in his testimony that a practical hardship would exist if the addition had to be located elsewhere on the residence and that similar additions were seen throughout the neighborhood. The conversion of the existing porch to an addition will create minimal disturbance to the neighborhood. A field review of the site verified that the addition would be typical to the neighborhood and that impacts to neighbors would be negligible. There were no protestants to the variance.
