

Notice of Decision

Case # ZA-883
Permit # 04-3991

Variance Request: For a variance from the minimum setback from 50 feet to 18 feet for an attached garage at 3035 Shamer Lane, Hampstead, MD, in Election District 08 by Phyliss and Jack Seipp.

Basis for Variance: § 223-37 and § 223-181 of the Carroll County Code of Public Local Laws and Ordinances.

Decision: Approved.

Basis for Decision:

It is the opinion of the Zoning Administrator that approval of the variance request will not:

- Adversely affect the public health, safety, security, morals, or general welfare.
- Result in dangerous traffic conditions or jeopardize the lives or property of people living in the neighborhood.

In making this determination, the Zoning Administrator cannot answer in the affirmative to the criteria provided in Section 223-191 of the Carroll County Code that:

- There would be a detrimental effect on the people working or residing in the area
- There would a negative impact on the orderly growth of the community
- There would be a detrimental effect on the peaceful enjoyment of people in their homes.
- That the use would have a negative effect on the conservation of property values.
- That there would be any effect from odors, dust, gas, smoke, fumes, vibrations, glare, and noise upon surrounding property values.

The applicant was persuasive in their testimony that the garage could not be constructed elsewhere on or near the home because of the well & septic field locations and the general topography of the lot. A visit to the site did reveal that the proposed location would not impose any visual hardship on the nearest adjoining property as there is a mature row of pine trees on the property line. There were no protestants to the variance.

Neil M. Ridgely
Zoning Administrator
