Notice of Decision

Case # ZA-940
Permit # 05-2661

Variance Request: For a variance from the required minimum setback of 30 feet to 10 feet for a maintenance building at the Carroll County Northern Landfill, Westminster, MD in Election District 04 by the Carroll County Department of Public Works.

Basis for Variance: § 223-75 and § 223-181 of the Carroll County Code of Public Local Laws and Ordinances.

Decision: Approved.

Basis for Decision:

It is the opinion of the Zoning Administrator that approval of the variance request will not:

- Adversely affect the public health, safety, security, morals, or general welfare.
- Result in dangerous traffic conditions or jeopardize the lives or property of people living in the neighborhood.

In making this determination, the Zoning Administrator cannot answer in the affirmative to the criteria provided in Section 223-191 of the Carroll County Code that:

- There would be a detrimental effect on the people working or residing in the area
- There would a negative impact on the orderly growth of the community
- There would be a detrimental effect on the peaceful enjoyment of people in their homes.
- That the use would have a negative effect on the conservation of property values.
- That there would be any effect from odors, dust, gas, smoke, fumes, vibrations, glare, and noise upon surrounding property values.

The applicant testified that the new maintenance building is needed to replace one which was destroyed by fire. The location of future cell #4 prevents placement of the building in that vicinity and this site is close to existing water and sewer lines. Mr. Paul Rill attended the hearing to learn more of the details concerning the new building location; he did not oppose the variance Given the three alternatives for the building the proposed site appears to be the most logical and cost efficient.
